Mr. Bill Denininger
Contract Administrator
Metcalf and Eddy
303 South Broadway
Suite 318N
Tarrytown, NY 10591

Dear Bill,

The EPA attorney who was assigned to the Nelson Galvanizing case, Michael Mintzer, recently contacted me regarding some information which is not included in the Post Removal Report for the Nelson site.

As you recall, the last material to be shipped for disposal were the 14 drums that failed TCLP for selenium. There is no mention of these drums anywhere in the report, nor are they included in Table 3, Summary of Final Disposal or in the section showing copies of the manifests. Mr. Mintzer has asked me to contact you to request that this information be submitted as soon as possible. Essentially, we need same information for the 14 drums that you've included in the report for the other materials. You need not resubmit the entire report, but merely pages that I can insert into my copy. As soon as this information is submitted we will be able to officially close-out this case pursuant to the Administrative Consent Order.

Thank you for your assistance in this matter.

Sincerely yours,

Paul L. Kahn
On-Scene Coordinator
Response and Prevention Branch

cc: M. Mintzer, 20RC
